

## The Early Intervention Parenting Programme (EIPP) Incredible Years

EVERYONE WANTS THE BEST FOR THEIR CHILD

This programme helps build on your relationship with your child and helps improve their chances of success in nursery, school and beyond

### How does the programme work?

Group Leaders will meet with parents once a week for two hours to work together on skills to help support their children at home and at school. The group will run for 13 weeks. The groups are designed to be enjoyable and supportive.

### How do we know it works?

Many years of research have shown that these programmes are very effective in promoting children's learning, positive behaviours and reducing difficult behaviours. Parents from many cultural

backgrounds have said that they find the programmes very useful

### Where and when does the group meet?

The groups will start in mid September 2008 and run during term time only. There will be a range of days, times and local venues.

*Free Creche provided for pre school children*

### Any more questions?

Once we receive a referral form we will contact you. We will talk to you on the telephone and we can also visit your home. We will have a chance to meet at a Coffee Morning where you will have an opportunity to ask more about the programme.

*Please come and join us!  
We look forward to welcoming you!*
